Professional Experience

Inventory Tech Specialist / Desktop Support Technician - Government of Alberta (Court Of Justice)

Edmonton, Alberta | 08/2023 - Present

- Document computer, networking, and AV equipment to maintain accurate records and ensure compliance in collaboration with the Government of Alberta Finance.
- Provide comprehensive desktop support for all users, including setting up and configuring desktop workstations, and diagnosing and resolving hardware issues.
- Offer technical assistance and guidance to end users in resolving issues efficiently.

UX/UI Designer - Moment Studio (Contract)

Remote | 10/2022 - 08/2023

- Design a Fintech website that provides personalized investment portfolios through crowdfunding and robo-advisory services.
- Create and implement a user-centered B2C mobile app connecting users with architects for home renovation projects.
- Design a B2C mobile app that streamlines payments and implements a multi-reward system for local businesses.

Graphic Designer - Wish USA

Remote | 03/2020 - 01/2023

- Perform collaborative work with a remote team to create social media materials for posting and meet deadlines.
- Produce high-quality poster designs that comply with Instagram criteria guidelines using creative thinking and incorporating solid visual elements.
- Increase likes and followers by creating modern marketing campaign designs to post on social media such as Instagram and Facebook.
